PROFESSIONAL SUMMARY

IT professional with 6 years of hands-on experience, including 2.5 years as a Systems Administrator specializing in endpoint management, identity and access, and security automation. Builds custom .NET tools that turn manual IT work into safe, audited self-service. Case studies and live demos at Whittaker-Tech.com.

WORK EXPERIENCE

IT Systems Administrator

Rowan College at Burlington County · Mount Laurel, NJ · Mar 2024 – Present

- **Identity Self-Service (BaronGuard):** Built a zero-cost, audited gateway that moved password, MFA, and access-pass resets (a manual queue taking **about 43% of each technician's week**) from OIT to student-facing staff, with mandatory identity verification. First 4 months: **2,200+ resets** on 1,686 accounts by 42 staff and **2,000+ manual technician escalations eliminated**. Its Escalation Center routes remaining issues to OIT as two-way HappyFox tickets.
- **Endpoint & Access Modernization:** Architected the college's first greenfield Microsoft Intune environment with hybrid MECM co-management and Windows Autopilot provisioning, and led the organization-wide BeyondTrust PAM rollout to enforce least privilege and Zero Trust across staff systems.
- **Imaging Overhaul (MECM OSD):** Replaced separate per-lab "fat" images with **one standardized Windows image** for every lab, instructor, and staff system. Task sequences handle naming, OU placement, answer-file configuration, and role-specific software, so staying current means updating a single .wim.
- **Active Directory Overhaul:** Restructured the inherited OU hierarchy and security groups and modernized Group Policy, consolidating **97 legacy GPOs into about 30** standardized policies.
- **Asset Management Automation:** Rebuilt inventory tracking for **3,600+ assets**, including 1,835 computers, in HappyFox Assets. A nightly, delta-only sync pulls equipment from the Ellucian Colleague ERP, confirms management in MECM, Intune, and Jamf, assigns each asset to its staff member, adds Dell, Lenovo, and Apple warranty dates via API, and retires decommissioned equipment. Every ticket now arrives with the requester's device and **warranty status attached**.
- **Lab Management (BaronOps):** Built a .NET 8/PowerShell "single pane of glass" unifying MECM, Active Directory, Deep Freeze, 25Live, and Sassafras, so most lab management happens remotely. Lab checks that meant walking every building now take **one click**, and weekly automated reports flag missed wake schedules.
- **Esports Security:** Designed a "Nuclear Lockdown" model (shell replacement, NTFS locking, BeyondTrust) that eliminated system-breakout attempts, and rolled out ggLeap to **468 students** and growing.
- **IT Leadership & Support:** Selected to serve on the departmental leadership team alongside the Director and Assistant Director, guiding strategy through the move from a multi-decade MSP to a new vendor. Mentor peers and write the master SOPs for lab infrastructure.

Advanced Repair Agent

Geek Squad · Princeton, NJ · Oct 2020 – Nov 2024 (part-time from Mar 2024)

- Diagnosed and repaired complex hardware and software failures on a 24–48 hour turnaround, sustaining **150%+ labor utilization** under a strict zero-data-loss policy.

EDUCATION

M.S. Cybersecurity & Information Assurance

Western Governors University
Expected Feb 2027

B.S. Information Technology

Strayer University
Mar 2023

CERTIFICATIONS

CompTIA A+

In progress: CompTIA Network+,
CompTIA Security+

SKILLS

Endpoint & Identity

Microsoft Intune · Windows Autopilot · Jamf · MECM (SCCM) co-management · OSD Task Sequences · Answer Files · Active Directory · Group Policy · Microsoft Entra ID · Hybrid AD · Writeback/SSPR · Deep Freeze

Security

BeyondTrust PAM · Zero Trust · Least Privilege/RBAC · MFA & Temporary Access Pass · OpenID Connect · Firewalls · Access Control Lists · NTFS Locking · Shell Replacement

Automation & Development

PowerShell 7 · C# 12/.NET 8 (ASP.NET Core, WPF, SignalR) · Microsoft Graph/REST APIs · Python · Bash · SQL · Git · HTML/CSS/JS

Infrastructure

Windows Server · Hyper-V · VMware · Proxmox · RDS · VLANs · Router Configuration · Imaging (CloneZilla/MECM) · Backups · Cloud Migration

Platforms

Microsoft 365 (SharePoint, Teams) · Ellucian Colleague ERP · Entrinsic Informer (reports & API) · Google Workspace · IIS · macOS · Linux · iOS/Android · ChromeOS · ScreenConnect · Parsec · VPN

Leadership

IT Strategic Planning · Vendor Management · Peer Mentorship · Technical Writing (SOPs) · HappyFox Administration
